Full job description

Your new company

An innovative, established Electrical Services contractor who have withstood the turbulence of the construction industry. Their core values and their success have been built on trust, integrity and exceptional customer service. They offer a full Electrical package from engineering and design, through to manufacturing, construction, and maintenance.

Your new role

You will join a team of 20+; reporting to the Senior Electrical Engineer. It is a highly involved position which requires strong management skills to lead and hold responsibility for managing a variety of building services projects to assist with Electrical Design and Construction.

What you'll need to succeed

To be considered for this role you must be able to fulfil following:

- Degree Level qualifications in Electrical Engineering
- A minimum of 3 years' experience working as an Electrical Engineer in the building services space.
- Exposure to fit out projects is essential.

What you'll get in return

They offer a family feel working environment; an open-door policy from the Directors which is often lacking in larger organisations. You will be well supported and have a lot of opportunity to broaden your experience and grow as an Electrical Engineer.

What you need to do now

If you are interested in this role, click 'apply now' to forward an up-to-date copy of your CV or call Chris now on 02 8226 9723.
